OPINION ON THE SALT CAVE

The unique microclimate and aesthetic values, suitable relaxation music allow you to spend pleasant, full of rest and relaxation moments in the salt cave.-/-

The biggest advantage of staying in the salt cave is the fact that it is built of salt from the Dead Sea, which is saturated with the richness of minerals. The session spent in the salt cave enables you to breathe clean, fresh air rich in microelements, such as iodine, calcium, sodium, magnesium, iron, bromine, selenium.-/-

These elements help with the following ailments:-/-

- Diseases of the upper respiratory tract-/-
- Diseases of the lungs and bronchi-/-
- Gastrointestinal disorders-/-
- Diseases of the heart-/-
- Diseases of the nervous system-/-
- Dermatological diseases-/-

I would recommend the use of salt caves.-/-
